Disparity in minimum wage

*347. DR. ABRAR AHMED:

SHRIMATI AMBIKA SONI:

Will the Minister of LABOUR be pleased to state :

(a) whether there is any disparity in rates of minimum wage in various regions of the country; if so, the details thereof;

(b) the reasons for variation from region to region; and

(c) the steps being taken to bring in regional uniformity in this regard?

THE MINISTER OF LABOUR (SHRI SAHIB SINGH VERMA): (a) and (b) Yes, Sir. There is disparity in rates of minimum wages in various regions of the country, which is due to differences in socio-economic and agro-climatic conditions, prices of essential commodities, paying capacity, productivity and local conditions influencing the wage rate. The regional disparity in minimum wages is also attributed to the fact that both the Central and State Governments are the appropriate Government to fix, revise and enforce minimum wages in scheduled employments in their respective jurisdictions under the Minimum Wages Act, 1948.

(c) In order to minimize the disparity in minimum wages in various regions of the country, the Central Government has issued guidelines for setting up Regional Minimum Wages Advisory Committees. In order to bring in uniformity in minimum wages, the Central Government mooted the concept of a national floor level minimum wage and fixed it at Rs. 35/- per day inl996 based on the recommendations of the National Commission on Rural Labour (1991) and subsequent rise in the price level. The national floor level wage is periodically revised based on the basis of increase in the Consumer Price Index. It was last revised to Rs. 50/- per day w.e.f. 1.9.2002. The States/UTs have been requested from time to time to ensure that the minimum wage in none of their scheduled employments is below the national floor level wage.
